Schools to Curtail Activities, But Will Not Close

Effective today, all night-

time activities, as well as weekend and holiday activities, will be eliminated in the schools of Garrett County. Although the Board of Education policy is to encourage public usage of these facilities, Superintendent of Schools William H. Buser indicated that this action was necessary as a result of Acting Governor Blair Lee's executive order directing that electric usage be reduced to a level of approximate 30 percent of the correst ang month of the prior year. In addition to this meas Dr. Buser indicated thae, tions such as reduced lac-

levels in corridors and Cia rooms, elimination of outdoo. lighting except when discontinuance may threaten safety, revised custodial night work schedules and other measures have already been implemented in schools in an effort to conserve electricity. Because it was felt that adverse weather conditions may

require additional closings of schools, Dr. Buser added that it was decided not to reduce the number of school days during the week as other districts

TIP OF THE WEEK: Saving money at the grocery store is cetting to be a full time job. The following ideas may help. Always shop AFTER you have had a good meal. You'li be tempted by almost anything at any price if your stomach is growling from hunger. Keep a notepad handy in the cupboard and jot down needed items as you run out or see that you're setting low. A last minute trip to buy something you've run out of may find you buying four or five other items which you hadn't planned to buy and could really get along without. Some people don't care to do menus for a week but they can help to save money by allowing you to get needed food for the week in one trip. Remember, those quick trips usually cost more than you

Soldiers For Hire Sadat Message Joining Angolans Delivered To

LISBON, Portugal (UPI) -White soldiers-for-hire are pouring back into Angola to join pro-Western guerrillas in their fight against the Soviet-and Cuban-backed regime, guerrilla

The sources said Wednesday 200 mercenaries — including British, French and Belgian army veterans - had been recruited by the Zaire-based Angola National Liberation Front and had arrived in northern Angola in the past two weeks.

Most of these recruits were quietly signed up in London, despite recent British government warnings that if captured they could not count on official intervention on their behalf. Angola's Marxist President

Agostinho Neto recently warned that captured mercenaries would be shot on the spot

In the past few weeks, there have been sporadic unconfirmed reports that a mercenary force was training National Front guerrillas in both north Angola and neighboring Zaire.

Several hundred European and American mercenaries fought alongside the National Front against the Popular Movement for the Liberation of Angola and its 10,000 Cuban allies in a bloody 1975-76 civil

The Popular Movement captured 13 of them - three Americans and 10 Britons — as the National Front retreated north into Zaire before a Sovietarmed Cuban offensive.

After a long show trial, 34year-old Vietnam veteran Daniel Gearhart of Kensington, Md., and three Britons were sentenced to death and shot by

Begin Thursday JERUSALEM (UPI) - U.S. envoy Alfred Atherton gave Prime Minister Menachem Begin a personal message from Egyptian President Anwar Sadat today in the first contact between the two Middle East leaders since their Christmas meeting

Begin said following an hour long meeting with Atherton the contents of the message which he described as a "personal letter" - must remain confidential. But it was clear it was not an invitation to a third summit between the two

'It can be said that this is the first direct appeal since our good and friendly meeting in Ismailia" over Christmas, Begin said. "A personal tie is very important. I am always encouraged by a message from President Sadat.'

Begin appeared in good spirits as he led Atherton from his office. It was Atherton who announced to waiting reporters that Sadat had given him a message to convey to Begin. The prime minister said in response to a question that it was not an invitation to Egypt. "If President Sadat should invite me, I will respond positively," hs said.

Begin said he will reply to Sadat's message early next week.

Atherton returned to Israel from Egypt Wednesday for a third round of his shuttle mission aimed at reaching agreement between old battlefield foes on a declaration of principles guiding an overall Middle East peace settlement. Begin said the American brought "remarks by the Egyptian government" regarding an Israeli draft proposal on the declaration in which the thorniest issues appear to be Village Inn, McHenry. Ambassador To Spain From Panama Will Be Replaced

PANAMA CITY, Panama (UPI) - Moises Torrijos, the target of U.S. senators opposed to the Panama Canal treaties, is being replaced as ambassador to Spain in what could be an attempt to ease ratification of the pacts.

The Panamanian Foreign Ministry announced Wednesday that Moises, 60, will be government, said to have replaced by Hugo Torrijos, another brother of Panamanian chief Gen. Omar Torrijos, "for reasons of age."

The Senate has been debating the treaties for two and a half weeks and the battle is shaping up as long and bitter.

Sen. Robert Dole, R-Kan., and other senators are attacking the treaties on the grounds that the Torrijos family cannot be trusted because it allegedly script of the Justice Depart- is involved in international drug trafficking.

Moises was indicted in 1972 by a New York grand jury on drug charges. The indictment stemmed from a July 8, 1971 drug raid at Kennedy International Airport in which U.S. narcotics agents found 154 pounds of heroin on Rafael Richards, son of Panama's ambassador to Taiwan.

Subsequent investigation led to the indictment of Moises as a "co-conspirator."

Some observers believed the retirement of Moises could take the steam out of one of the arguments against the Panama Canal treaties, which would turn the waterway over to Panama in the year 2000.

The drug trafficking allegations prompted the Senate to hold a rare closed session Feb.

Following the discussions, supporters of the treaties said they were concerned by the allegations but added that no "smoking gun" had been

Hugo Torrijos, said to be in his 50s, has been director general of government casinos in Panama. Like Moises, he is an elder brother of Omar Torrijos.

THE GIFT OFPATIENCE

Lesson for March 5, 1978

Background Scripture: Devotional Reading: John 16:4-11.

God has given me. Like most people I probably have considerably more of those gifts than God amounts to: lack of faith. It I realize and use. Yet, there is means I still want to substitute one gift which I often wish had my judgement for his, that I still been part of my God-given do not really trust him to keep his endowment:

I am grateful for the gifts that

Care Of Elderly WASHINGTON, D. C. -

Byron To Introduce

Tax Break Bill For

Citing the need to "keep families together" Rep. Goodloe Byron said this week he would introduce legislation in the House to provide a tax break for families who care for elderly dependents in their own home. Under the measure a deduction of \$1500 would be allowed for the care of dependents aged 65 or older. Byron indicated his decision

to sponsor the bill was based on citizen interest though he also pointed to a government study showing that the cost of nursing home care often exceeds the cost of home care until an elderly person becomes extremely ill or physically impaired.

Lutherans believe . . . **CHRISTIAN**

It's not a performance" which spectators" simply watch. Furthermore, it's more than an audience"

listening to a speaker" or a lecturer." Worship is dynamic because God comes to the individual and acts. He proclaims His Word; He forgives; He renews.

In turn, the individual repents; receives; Worship gives man the opportunity to praise

God; to give himself in gratitude and humility to God. It's really a time of offering in which a man offers himself . . . his time, his voice, his mind, his money. Lutherans believe worship is actual communion with God, in which God comes to the

individual and the entire congregation. In worship God changes human lives. As someone has observed - When God stoops to pick

up a trifle, it's a trifle no longer." That's powerful! The dynamic of God is at work in worship . . . and you need God and His dynamic.

State Highway Administration's

order no. e-6544

Oakland, Maryland

Oakland, Maryland Bernard M. Evans State Highway Administrator
DATE: FEBRUARY 21, 1978

PUBLIC NOTICE In accordance with Certification Acceptance Operating Procedures, the State Highway Administration of the Maryland Department of Transportation has considered and granted design approval for a section of Maryland Route 135 in Garrett County. The project extends from 0.2 mile east of Maryland Route 38 to 0.2 mile west of Turkey Neck

The design, as approved, provides for the construction of two (2) twelve (12) foot lanes with a twelve (12) foot contiguous truck climbing lane where required, ten (10) foot paved shoulders and safety grading. The project will also include construction of a new bridge structure over the B &O Railroad, at a location approximately 130 feet east of the existing structure. Access roads are proposed where required to service adjacent

The design does not provide for control of access, except normal denial across right of way lines in all quadrants of intersections. Beginning on March 2, 1978, the Design Study Report and other material submitted in support of the design approval will be publicly available for inspection during normal working hours at the following locations:

Reductions Of Electric Use Ordered In Maryland

By executive order of the Governor of Maryland, mandatory curtailment of electric use is now in effect for Maryland customers of Potomac Edison.

- Effective immediately, each industrial and commercial customer is ordered to curtail the use of electricity to a level of approximately 90 percent of the customer's usage in the corresponding month of the prior year.
- Effective 12:01 a.m. March 2, 1978, each industrial customer is ordered to curtail the use of electricity to a level of approximately 70 percent of the customer's usage in the corresponding month of the prior year.
- Effective 12:01 a.m. March 2, 1978, each commercial customer is ordered to curtail the use of electricity to a level of approximately 80 percent of the customer's usage in the corresponding month of the prior year.
- Effective immediately, all lighting used for decorative, showcase, or advertising purposes shall be extinguished,
- except that a single illuminated sign or light may be used to identify a commercial establishment which is open for business after dark.
- · Effective immediately, all lighting not essential for public safety on parking lots or along roads and highways shall be extinguished.
- Curtailment levels do not apply where they would substantially affect provision of essential services to the

In addition to the above mandatory restrictions ordered by the State of Maryland, we continue our urgent appeal to all residential customers to eliminate non-essential uses of electricity in their homes.

Garrett County Non-Union Mines Operating Again

By United Press Inter-

Western Maryland's nonunion coal mines are resuming operations after being closed for nearly three months because of the nationwide coal strike, according to state min-

ing officials. Matthew Skidmore Sr., president of the Western Maryland Coal Owners and Operators Association, said some activity at the mines resumed last week "in anticipation of the end of the strike.' "Now that the president has ordered the miners back, all the mines around here should be ready to get back to work within the next day or two," Skidmore said.

Officials at several area mines acknowledged that they

Do you favor a separate Federal Department of Education? Also, what is your position on impact aid?

I have long advocated the Department of Education in order to give education the priority it deserves and to improve the administration of federal educational programs. I also favor full funding and continuation of Impact Aid. This program compensates many of our communities for the loss of tax revenue from the federal facilities in the area and for the costs of educating the children of federal employees.

What have you done to reduce unemployment in Western Maryland?

To help alleviate unemployment I have co-sponsored the Local Public Works Employjobs nationally and has resulted in improved public facilities such as sewers, courthouses, fire stations, Mr. and Mrs. Carl Fresh at including Garrett County, Alle-

In addition, I have supported the Young Adult Conservation resources and parks, such as the C&O Canal. I have also voted in favor of special antirecession fiscal assistance payments to local governments in areas of high unemployment. Is Indebted to the Bearer in the sum of ONE HUNDRED DOLLARS, current money of the United States of America, payable on the 1st day of June, 1885, with interest at the rate of six per cent. per annum, payable semi-annually, on the 1st day of June and December in each year respectively, upon presentation and surrender of the proper Coupon hereto annexed. This debt is authorized, and this bond is issued by virtue of the Act of the General Assembly of Maryland, passed January session, 1884, chapter 168. The principal and interest of this bond are

payable at the office of the County Commissioners of Garrett County, Oakland, Maryland. IN WITNESS WHEREOF, the County Commissioners of Garrett County, State of Maryland, have caused this Bond to be signed by their President, and attested with their corporate seal, and counter-

signed by their Clerk on this 2nd day of June 1884.

No Trespassing

I will not be responsible for any injuries or liabilities incurred as a result of trespassing on our property.

Snowmobiles, trail bikes, motorcycles, hunters and trespassers are prohibited on our property in Election District 5, located between Route 219 and Pysel Rd.

Arthur G. Coddington and Georgia N. Coddington

Garrett County school bonds issued in June 1884, authorized by state law in January of that year, were redeemed recently by the Board of County Commissioners. The ten bonds, valued at \$100 each, with a total issue of \$18,000, were from an estate in North Carolina, and the check for \$1,000 including interest, was made payable to Charles R. Browning. The bonds have now

been turned over to the Garrett County Historical Society for

inclusion in the museum, and were accepted recently by Robert

Ruckert, president, and Dorothy Cathell, secretary-treasurer No explanation has been forthcoming as yet from the heirs about why the bonds had never before been redeemed. They were signed by Andrew Mullen, president of the Board of Commissioners, and countersigned by George W. Merrill, county clerk, and were printed by the Mountain Democrat, a former newspaper in Oakland. Interest coupons were still attached to the bonds at the time they were redeemed.

CHARTER MEETING

We invite you to attend this special meeting. Our special guest, Mr. Harold Hoskins, will be here to present our Chapter Charter. PHONE 334-4829 or 334-9627 FOR RESERVATIONS

HAROLD HOSKINS

Harold Hoskins is from Wilkes-Barre, Penna. He grew up in gangs and in a home with no Christian witness. Because of alcohol, Harold was involved in a serious car accident. A visitor in the hospital gave him a Bible and told him about Jesus. Later he found Jesus as his Saviour and then was led into the Baptism of the Holy Spirit. Brother Hoskins is a baptized Roman Catholic and President of the Wilkes-Barre, Pa., F.G.B.M.F.I. Chapter and Field Representative, and is in the nursing home

Harold has traveled in several states and in Europe, speaking and telling others about Jesus.

Potomac Edison Now Offers A

Uniform Monthly Plan For All Residential Customers In Maryland

Pay twelve equal monthly electric bills with year-end adjustment

The majority of our customers are billed every other month for their electricity and pay the total amount of that bill when it is received.

However, if you are a Maryland residential customer, you may elect to be billed under our monthly "Uniform Payment Plan."

Under this plan, we estimate the total annual charges for your electric service and determine from this your "monthly payment" amount. You then receive an electric bill for the same amount every

NOTICE To the Citizens & Taxpayers of Garrett County

Just when prospects are looking brighter for some of our people who are lucky enough to own land with coal deposits near the surface that can be strip mined, our politicians are getting ready to muscle in.

Commissioners Edwards, Bender, and Hamilton, the well known Court House Destroyer Trio, are asking for a law to permit them to take an additional 1212 cents per ton of coal mined. This, they estimate, will yield \$300,000 to \$600,000 per year from our taxpayers here. Of course they are having no trouble getting Bolden and Mason to cooperate. These two wanted a much higher tax bite. 1212 cents will be added to the 7 cents per ton that they legislated to the State two years ago. Why?

The State doesn't own the coal deposits here, neither do the County Commissioners. The coal belongs to the land owners. Neither the County nor the State should be permitted to muscle in on it. Most of the coal veins here are thin and expensive to strip mine. The operators cannot raise their prices because they have to compete with coal from other places where they do not have such taxes. Therefore, to stay in business, they will have to reduce the royalty they pay to the land owners for the coal. What ever amount of taxes they pay to the county and state will be taken from our citizens

in this county. If let alone our coal producers will continue to provide employment to hundreds of our people. In addition, they will pay a half Million Dollars per year in property taxes to the County, and Millions of Dollars in Gasoline taxes. Tax on the production of any commodity has always proved to be counter productive. It is not fair to pick out coal for a special tax unless we tax other production, and this

would be suicidal. We have had ample opportunity to observe what happens when our officials get more tax money. They have doubled our taxes but they want still more. Millions of our tax dollars have been going down the drain. The money has been wasted to create new controls over us, to destroy our Court House, to pay outside planners and engineers etc. Approximately \$300.00 of local tax money has gone

to pay planners within the last year. Those citizens who think that some new kind of taxes might help to reduce the taxes on their homes are mistaken.

The Chemistry of Character

There is no precise formula. But there are certain elements usually found in significant measure in persons of character.

One is belief. And not just belief in one's self. The men and women we most admire generally have strong convictions which influence their daily lives.

Another is commitment. Far beyond mere involvement. Those who stir our admiration devote their time and talents unselfishly to worthwhile causes. And there's usually a third element; but it's never boasted of or paraded about. That's sacrifice. People of character are always willing to deny themselves

something to achieve something greater. Nearby are plenty of "laboratories" where belief, commitment and sacrifice combine to produce Christian character. They're called CHURCHES.

blatant display of power would be appropriate A good many church people today seem to think that there is something vulgar in displaying spiritual power. At the same time it is obvious from the New Testament that neither Jesus nor his disciples shared those concerns. Although the miracles were never vulgar or crass. Jesus and his disciples knew and used the power of signs and wonders for the sake of the kingdom.

Potomac Edison To Offer Monthly Payment Program

Potomac Edison residential customers in Maryland who bills may want to consider a uniform monthly payment plan now available to all customers in that class regardless of annual usage.

The plan has been in effect for large-use residential customers for about a decade but, according to PE division manager J. L. Stitt, "We believe making the plan available to all residential customers would provide a the burden of unavoidably high seasonal costs particularly during winter months.'

Under the plan, Potomac Edison estimates the total annual charges for a residential customer's electric service and uses one-twelfth of this amount for a monthly payment. A customer using the plan would receive an electric bill for the same amount every month, thus leveling out

seasonally high bills. If at the end of a twelvemonth period a customer has paid more than required, PE will either credit the account or refund the difference. If charges are more than actually paid, a customer will receive a bill for the difference. Customers wanting to use

Salmonellosis Is Diagnosed In Two Area Beef Herds

PER COPY 15c

Salmonellosis has been diagnosed in two beef herds in Garrett County, according to Dr. F. D. Custer, Maryland Department of Agriculture. Salmonellosis is a disease caused by salmonella bacteria, and is capable of causing sickness in most all species of animals as well as man. The disease is usually associated with food or water that has been contaminated with fecal material containing the

salmonella bacteria. Salmonellosis is fairly common in poultry, young calves, and pigs, but is not often found in adult cattle. In fact, according to Dr. Custer, this is the first time the disease has been positively diagnosed in cattle in this area in the 32 years he has been

WINTERFEST ROYALTY - Amid all the confusion and excitement of Winterfest V, held at the Wisp Ski Area March 3-5, a photograph of the Winterfest Queen and Princesses was missed and thus did not show up in last week's edition of The Republican. Her Majesty, Carol Jean Ross, seated, was gracious enough to call her court together this week for a picture. Pictured, left to right, standing, are Princesses, Lesa Frazee, Ann Hershberger and Debra Spaulding. Carol, a junior at Northern High School, is the daughter of Mr. and Mrs. James A. Ross, Friendsville. She was crowned at the Queen Coronation Dinner March 3, by Winterfest '77 Queen, Pam Trickett, of Oakland. Lesa is the daughter of Emerson and Mildred Frazee and is a student at Southern High School. Ann is the daughter of Mr. and Mrs. Donald R. Hershberger, Accident, and is a senior at Northern. Debra, a senior at Southern, is the daughter of Mrs. Peggy Spaulding, Oakland. The Queen contest judges were Christine Yoder, Paul Frantz and Terry King. How about a picnic? Last year, my family and I headed out to Herrington Manor around the end of March, loaded down with barbecued chicken and macaroni salad, for a rather chilly and breezy but refreshing and rejuvenating picnic. I doubt that anyone feels like having an outdoor picnic now but you have to admit that the thought of a picnic brings memories of carefree fun, good weather and just plain good food. So, let's have a picnic . . . indoors. Get out that picnic tablecloth, fry some hamburgers, make some potato salad, fix some carrot and celery with an indoor picnic. It's bound to take your mind off of snow and get you thinking of the good weather that's coming.

The following Potato Salad is especially for those people who must follow a low cholesterol, low fat diet but everyone will enjoy it and never miss the mayonnaise or eggs.

> POTATO SALAD be cup sliced celery (2 stalks)

1 cup (8 oz. container) 14 cup lowfat milk

1 cup gr. pepper, chopped

1 Tbsp. light corn syrup 2 cup fresh, chopped onion or 5 cups potatoes, cooked, cubed and cooled (about 8 med.-sized potatoes)

Combine all ingredients. Add additional salt and pepper to suit your taste and chill in the refrigerator overnight or at least for several hours. NOTE: Yogurt comes in many flavored varieties so be sure you buy the plain, unflavored kind. This

recipe makes about 7 cups of potato salad.

WACKY CHOCOLATE CAKE

Measure and sift twice:

3 Thsp. cocoa (Plain cocoa, not chocolate flavored milk powder

Last time, sift into an 11"x7" pan or an 8"x8"x2" pan. Make 3 indentatins with a spoon. To the indentations add:

'a cup Wesson oil 1 Tbsp. vinegar

1 tsp. vanilla

Add 1 cup cold water over all and blend thoroughly with a fork. Bake at 350 degrees for 30 minutes. This is a moist cake which is good without frosting but you could top with your favorite

NUTRITION NOTE: In continuing last week's information about cholesterol and saturated fats, I can reassure you that you are not alone if you find these terms confusing. Many advertisements about cholesterol are misleading. Remember that cholesterol is found in very high amounts in mainly, egg yolks, shellfish and organ meats such as kidneys, heart, etc. Now, saturated fats, which tend to raise cholesterol levels in the blood, are found in beef, lamb, pork, butter, cream, whole milk and cheeses made from cream and whole milk. Saturated vegetable sticks, make a quick cake and celebrate the arrival of Spring fats found in many solid and hydrogenated (hardened) shortenings, coconut oil, cocoa butter and palm oil will also tend to raise cholesterol levels. Polyunsaturated fats will tend to lower levels of cholesterol in the blood by helping the body to eliminate excess, newly formed cholesterol. Oils such as corn, cottonseed, safflower, sesame seed, sovbean and sunflower are high in polyunsaturated fat. Mayonnaise, which has a high content of egg yolks, and eggs were eliminated from the Potato Salad and Wacky Chocolate Cake recipes this week because egg yolks are high in actual cholesterol.

TIP OF THE WEEK: Make your oven do double duty for you. You are using the same amount of energy and will be paying the same for it whether you cook just one item or several items in a heated oven. For example, you can bake just one meatloaf or, using the same amount of heat, you can bake two meatloaves, a dish of scalloped potatoes, and some baked potatoes. Of course, you won't use all of this food for one meal. You can serve one meatloaf, topped with tomato sauce, and the

scalloped potatoes for one meal. Slice the other meatloaf and put is three to four times as ex- but when the alternative is no The following recipe comes from the Junior Woman's Civic into the freezer to be served another time with gravy and pensive as electricity electricity most of us would

Southern Wrestlers Finish Season With Outstanding Record, 8-1-1

The Southern High School Wrestling Team recently finished their season with an impressive record of 8 wins, 1 loss, and 1 tie. In addition the Rams Wrestling Team won the Beall High School Wrestling Tournament held during the Christmas Holidays, the Potomac Valley Conference Tournament, the Bi-State League Championship, and the Garrett County Championship. This is an outstanding accomplishment for a team that had won 3 matches and lost 7 a year ago. This striking improvement was due to the hard work and determination of the individuals on the team, and the winning spirit and leadership provided by Coach Mike

Leading the Rams Wrestling Team were Co-Captains, Jim Clark and Bob Wolfe, who worked with Coach Huddleston in getting the members of the team in top physical condition. The individual record of each wrestler is as follows:

Hame and Height Class	WILLS	1.055	rics	cent .	1113	
Jim Clark 185 lb.	20	3		.870	11	
John Toston 138 lb.	14	3		.824	8	
Bob Wolfe 112 lb.	14	4	1	.763	2	
Dave Browning 126	12	4		.750	8	
John Hayhurst 119 lb.	12	5		.706	7	
Jeff Hinebaugh Unlimited	13	5	2	.650	5	
Stan McRobie 132 lb.	10	6		.625	6	
Bill Herring 98 lb.	10	7	1	.555	5	
Perry Clark 155 lb.	7	7	2	.500	7	
Jim Barnes 145 lb.	8	9		.471	2	
Mike Klier 167 lb.	1	3		.250	1	
Jeff Paolucci 105 lb.	2	12		.143	2	
Gregg Skiles 167 lb.	0	11		.000	0	
Bill Brown 132 lb.	0	1		.000	0	

The best individual record belongs to Jim Clark with 20 wins and 3 losses, followed by John Toston with 14 wins and 3 losses, and Bob Wolfe with 14 wins, 4 losses, and 1 tie. Jim Clark led the team with the most pins with 11, followed by John Toston and Dave Browning with 8 each, and Perry Clark and John Hayhurst with 7 each.

123 80 6 .603 64

The most Takedowns was by John Toston with 21, was third with a 20.5 scoring followed by Jeff Hinebaugh with 20, and Jim Clark with 15. Bill Herring led the team with 20 Reversals, followed by Jim Clark with 18 and John Hayhurst with 16.

The escape artists were led by John Toston with 12, Bob Wolfe with 11, and Jeff Hinebaugh and Stan McRobie 9 each. Jim Clark became the fourth wrestler from Southern High School to win a District 1 Wrestling Title, winning the 185 lb. Championship. Bob Wolfe finished second in the 112 lb. class and Jeff Hinebaugh won third place in the Unlimited

In Region I Competition, Jim Clark was second in the 185 lb. Class, losing in the finals to LeRoy Barton of Gaithers-

On March 4, Jim also became the second wrestler in Southern's history to compete in the Maryland Public Secondary School Athletic Association State Championship Tournament. Jim won his first match defeating Daryl Williams from Westminister 3-2 and then lost to Perry Lewnes of Annapolis 4-3 in the quarter finals, thus finishing in the top 8 wrestlers from the State in the 185 lb. class.

Coach Huddleston and the Southern Wrestling Team are to be congratulated for their accomplishments this year. Coach Huddleston has stated that next year should be a rather good year for the team, because of the program that has been started. Plans are underway for a wrestling clinic that will begin on March 20 and run for two weeks with a tournament to be held April 1, at Northern High School. The clinic will be open to students from the 4th grade through the 9th grade. Interested students are requested to call Coach Huddleston at the Southern High School Athletic Department.

Premium Gasoline Said Drying Up

ANNAPOLIS (UPI) - Maryland's supply of premium gasoline for cars is drying up because 15 major oil companies have stopped selling the high test gas and others may follow, State Comptroller Louis Goldstein said Tuesday.

"Our office is receiving funeral of their husband and almost daily communications father, and spending a few from major oil companies, days with the former's sister, indicating that they will no longer offer gasoline with an octane rating of 95.0 or more (the required rating for gas to be advertised as premium)," Goldstein said.

The Board was asked why the administrative and supervisory personnel commuted to vehicles. Clarence Stem, vicepresident of the lay Board, explained that these persons were subject to being called out in the evening or in the middle of the night. He stated that there was no place to house the vehicles at night and that personnel would often the way to the Board office each morning.

Assistant Superintendent of Educational Services noted that the budget request included a salary for a new clerical position at the Board office. Dr. Ryscavage explained that the new position was necessary because the present staff which handles the payroll is carrying too much of a burden. Some clerical employees are working eight to 16 hours each month in excess of their required workload in order to complete the payroll. He also stated that several teachers were interested in receiving bi-monthly paychecks, instead of the present monthly check. It is the Board's opinion that the additional data processor would be necessary in order to complete the expanded workload.

Russian Cosmonauts Return To Earth After Record Trip

MOSCOW (UPI) - The Soviet Union's two Soyuz 26 cosmonauts returned to earth today, ending their record 96day mission in space.

The official Soviet agency Tass announced, "The 96-day space manned flight the longest one in the history of cosmonautics - is over. "Soviet cosmonauts Yuri Romanenko and Georgy Grechko came back to earth today,"

Tass added. Tass said the Soyuz space capsule landed safely at 2:19 p.m. (6:19 a.m. EST) in the spaceflight recovery zone in Soviet Central Asia.

The Soviet agency said the capsule made a parachuteassisted soft landing 164 miles west of the Kazakhstan city of Tselinograd.

But the 22-17 vote by the bargaining council was narrower than the 25-13 tally when it sent the last contract to the rank and file. That agreement

was rejected by a larger than 2-to-1 margin and led to President Carter's invoking of the Taft-Hartley Act. The strikers have mostly ignored a subsequent order by U.S. District Judge Aubrey

Robinson, which directed the 160,000 UMW miners to return to work. UMW President Arnold Miller evaded reporters waiting at the Labor Department for word of the council vote. Other council

members forecast a close, and possibly negative, ratification tally Miller earlier had hastily moved the council session from UMW headquarters to the department's conference room after about 100 angry miners demonstrated around the union

Long ago in ancient Palestine, the prophet had heralded the coming of a king. But now few thought it more than the usual procession of some new earthly ruler. Yet no king ever came as He came. No king ever built such a kingdom.

This was the King of Heaven who rode into the hearts of men and built there a Kingdom of Love!

comes in every age to all who will believe. He comes to you. Go to church this Palm Sunday, for "thy king cometh." Let the King of Heaven ride into your heart.

Builders Group Has Charter Night

Charter Night ceremonies for the recently-formed Mountaintop Home Builders Association was held Tuesday, March 14. at Silver Tree Inn on Deep Creek Lake.

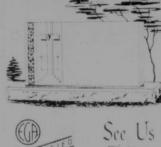

Following dinner, charter membership certificates were presented, and speakers from state and National Association introduced.

Speakers included Bob Lowe, state president; Lee Straight, state executive officer, Boris Lang, National representative; David Smith, immediate past national representative, Midge Kraft, assistant secretary, National Association, and Bill Glenn, regional representative, NAHB. Representatives gave information on the state and national association services to builders and lobbying efforts in Annapolis and Capitol Hill.

Bill Glenn presented the club with the official charter.

Officers for the organization are Dick Morris, president; Ed Wilburn, vice president; Katheryn Pensinger, secretary; and Jim Adair, treasurer. Two-year members of the board of directors are Dave Beachy, Pete Nichols, Jake Powles, and Sib Skipper; one

ADDRESSES B.P.W. — Miss Susan Crawford, center, local assistant state's atforney, was the guest speaker at the March meeting of the Garrett County Business and Professional Women's Club at Will o' the Wisp. Pictured above, right, is Miss Mildred Wucik, chairman of the legislative meeting, and at left is Mrs. Linda Thomas, legislative committee member. Miss Crawford's topic was "Rape Protection and Counseling of Victims," and concerned legal technicalities and information important to women. There were three reported rape cases in Garrett County last year, and one so far this year.

NO EXPERIENCE NECESSARY

In most cases, you need experience to get a job. And you need a job to get experience. Not in the Air experience. Not in the Air Force. In the Air Force, we give that experience to you—and we pay you while we do it. After you select your skill and qualify, the Air Force will GUARANTEE you your training in some of the finest facilities in the world. When you complete your training, we give you a job. And a lot of great benefits, too. Like 30 days paid vacation a year. Free medical and dental care. A terrific retirement program. For more information, call your Air Force recruiter. It's a good deal.

Dear Mr. Sincell: Having served as president of the Garrett County Board of Education for the past five years, your editorial of last week has prompted me to write this letter. In my opinion, the article raised questions in the minds of some readers as to whether the school board has any established priorities. If so, let me take this opportunity to indicate the Board has established program priorities with extensive community involvement. In its program position state-

ment the Board stated it would continue its efforts "in all given curricular and programatic areas," however, we went on to state "all basic skills, which includes reading, writing, listening, speaking, and arithmetic in all grade levels," would be stressed. It further stated self-responsibility for disciplinary and citizenship purposes would be a major area of responsibility. Workshop experiences, committee groups, and teaching staff are being used to further these goals.

In implementing our overall program we spend money for people, salaries, heat, light and many other items for seeing the programs implemented. We have consistently in the past spent the funds available to us for priorities that we believed improved school programming for children. As the total budget is finalized this year, we again make many value judgments related to fiscal priorities and place the dollars where they will improve the priorities listed above. The Board looks to all concerned groups...public groups, P.T.A.'s, and others for their comments and opinions as we finalize the

Dear Editor: Sometimes people in power believe the public is either ignorant, apathetic or inarticulate. "The Republican" has provided a public forum which has proved this assumption

No public institution affects us more personally than the schools which influence and guide our children to adulthood. School officials should be our allies not adversaries in whom we have no trust or confidence. The future strength of our community and our country rest on the intellectual and moral growth and development of our children. Taking this responsibility of educating our children lightly will decay our national strength and squander our greatest natural resource -

our childen. I am particularly saddened when members of any "helping profession" generate policies and programs that are not motivated by the philosophy that it is better to serve your fellowman and God than it is to be self-elevating.

Dear Editor: I have something to add to a letter you published and hope you publish this one.

Richard W. Perando wrote that some people think that the coal miners are "Bad Guys." Well, I think they're the most beautiful people in the world. After all, what would this world do without them? The people that are mostly saying this are the non-coal miners. They work in warm cozy offices, and they can go to a dry, warm, safe place to eat. As for the coal miners, they have to spend their working hours in a cold, dark, damp hole dug in the ground that isn't safe at all. These guys even have to eat their lunches with coal black hands and try and find a warm place to eat it on some cold rock. But they get that coal out. You bet they do. These guys know what working conditions they have to face before they enter those mines. But they still go down into them and do it. It takes brave Sacred Heart Hospital. She is they're the bad guys until you, the non-coal miners, go down underground and see what it really is like. Most of the coal miners go underground not daylight again. Marriage? Maybe. Children? Highly unlikely! I've witnessed far too many fine people in otherwise fine relationships succumb to the Living-In-A-Rut routine once the children are allowed to dominate the scene. I can not fathom myself in any rut of any kind. To drag a kid down with me would be valid reason for feeling guilty, irresponsible, and selfish - and kids don't need that kind of example from parents.

Alcohol, Tobacco Tax Revenue Has Slight Increase

Maryland State Comptroller Louis L. Goldstein said today that February 1978 revenue from alcoholic beverage and tobacco taxes totaled \$5,620,539. Those net receipts exceeded February 1977 revenue by .69%. Revenue from distilled spirits, beer and wine taxes all reflect growth over February 1977.

Distilled spirits tax receipts of \$961,853 were up 13.76%, wine increased 20.72% to net \$231,421 and the beer tax of \$572,671 showed a 1.56% from cigarette taxes during February 1978 was \$98,975 or 2.48% less than the \$3,992,001

Streams Receiving **Trout Allotments**

Trout stocking is proceeding almost on schedule despite late thawing of several streams, according to Cecil Edwards, conservation associate with the Fisheries Administration, and manager of Bear Creek fish hatchery near Accident.

All streams will be stocked by this weekend with the possible exception of Muddy Creek, where access roads remain blocked by deep snow.

Stock rainbow trout, from Bear Creek and from federal fish hatcheries in Virginia, will be providing trout 9-12 inches long for local fishermen. A trout stamp is required in all non-tidal waters in the state in order to possess trout. At a specific area at Savage River, all fishermen must have a trout stamp regardless of whether or not they have trout in their possession. Possession limit is five trout per day.

All streams in the county will be open to trout fishermen this Saturday and Sunday. Sunday evening Bear Creek and the Savage River area will close until April 8, to allow additional stocking. These two areas will again be closed May

Other streams, including Salt Block Run, Mill Run, Muddy Creek, Buffalo Run, and Glade Run will be closed March 12 to 25, reopening the 25th until April 9. The streams will reopen for fishing April 22.

So far, 1700 trout have been freed into Savage River; 250 Glade Run; and 500 each in Mill Run and Buffalo Run. Muddy Creek will also receive

State Requiring Additional Work

The State is requiring addiful and multiply. Those of us, year. The revenue from tional reclamation work on 232 acres of land that had been strip mined in Western Maryland. At the same time, 788 acres including 135 acres in Savage River State Forest have been approved as sufficiently revegetated to meet the requirements of the State's mining laws during 1977.

The actions were taken by the Maryland Land Reclamation Committee after consideration of planting reports filed by fifteen surface mining companies involving 25 permits and 1,020 acres of relaimed land.

Fred Bagley, revegetation specialist with the Bureau of Mines of the Department of Natural Resources, evaluated the reports and made recommendations to the Land Reclamation Committee. The Zone Administration.

Some areas may require a longer holding period if the Bureau determines that more time or effort is needed to meet the revegetation

requirements. Under a recently adopted policy, the general public will be given a greater opportunity to participate in the State's reclamation evaluation process in the future. In the spring of each year a listing of acres eligible for revegetation bond release will be publicized, and any interested Maryland citizen will have the opportunity to visit these areas by nothlying the Bureau

Mr. Coddington, industrial arts instructor notes that, "during the construction of their wooden toys, students will be introduced to areas of instruction involving dendrology, safety, measurement, surfacing procedures and warpage, hand tools, power tools, adhesives, the foundry process, abrasives, fasteners, the use of mass production fixtures, assembly techniques, and finishing techniques. Industrial arts becomes more than a tool to aid other disciplines. It becomes the primary method in teaching the broad concepts of industry and presents an orientation to a vast range of industrial experiences and possibilities for future career choices." Pictured is student. Keith Andrews, drilling axle holes through metal cast in the foundry process. Scrap metal for the project was donated by several people in the community, with steel rods for the axles donated by Cecil Holtschneider, owner of Quality Machinery.

Southern Middle School eighth grader, Susan Shaffer, carefully cuts one of the wooden component parts to be used in the construction of a toy. The wooden toys are created on the drafting board with consideration to geometric construction, structural stability, modern design and market ability. The students use brain-storming techniques to gain a cluster of design possibilities, then are guided by the instructor to consolidate ideas. The toy is subdivided into parts in the form of an assembly drawing. The students, with their completed assembly drawings,

'To promote creativity through problem-solving experiences with tools and materials," is a goal of the Southern Middle School's industrial arts program. The Southern Middle School industrial arts department, under the instruction of Charles

Coddington and Ernest Umbel, is establishing an industrial arts program that consists of a progression of industrial activities for students in grades six through eight. Presently the total

enrollment of boys and girls is cycled through the industrial arts areas on a six-week change

basis. This allows students to be exposed to both drafting and general laboratory activities.

According to Mr. Coddington, in these middle school years industrial arts is used as an important

tool in enabling a child to relate to his environment. Pictured, left to right, in the design phase of

Kodak Loses 113 Million In Anti-Trust Litigation

NEW YORK (UPI) - Eastman Kodak Co., the world's largest photographic firm, says it will appeal a jury ruling that awarded nearly \$113 million in antitrust damages to a small New York

firm. The damages were awarded Wednesday by a federal court jury to Berkey Photo Inc. which claimed Kodak had used its technical dominance to monopolize the amateur photographic market in violation of antiturst laws.

Kodak said it would appeal the damage award as "Unwarranted because the company continues to believe that the court applied an incorrect standard of law in the

"We believe," the company said, "that Kodak's introduction of new and innovative products has not violated the law. We intend to appeal both the liability and damages findings of the jury."

The same eight-woman, twoman jury that assessed the damages Wednesday ruled in January that Kodak, of Rochester, N.Y., was liable for monopolizing the amateur

One Killed In Bomb Explosion In Denver

DENVER (UPI) - Police Chief Art Dill reported Wednesday two powerful bombs exploded minutes apart early Wednesday morning in locations four blocks apart in downtown Denver. A third device, a paper-wrapped dynamite bomb with a timer, was discovered near one of the sites

and defused. The lone victim, described as male, 25 to 30 years of age, was crouched over one of the bombs when it exploded. Dill said the man was blown to pieces by the blast and his body was scattered over a two-block area. Today deputy coroners are examining the bits of bone identifying him.

Karl Wallenda Dies Wednesday

SAN JUAN, Puerto Rico (UPI) - The patriarch of the Fly Wallendas family, Karl Wallenda, 73, died Wednesday when a gust of wind swept him off the high wire he was walking 10 stories above the

ground. The wire was strung between two 10-story hotels in the heart of San Juan's tourist district. When the wind hit him he tried to grab the wire but failed and plunged 150 feet to his death on a paved parking lot. His family said their daredevil walks in the air will go on - "That's how Karl would have wanted it."

Lee Criticizes

criticized an ethics bill for public officials being considered by the Senate, charging it fails to close all the conflict of interest and fi-

However, the Senate decided to take parts of his bill and add it to a measure sponsored by Senate President Steny Hoyer, D-Prince George's, and Sen. John Byrnes, D-Baltimore.

"I will go along with a certain amount of game playing, but when you mess up good legislation it's not funny any more," Lee said.

Lee said the Hoyer-Byrnes bill will help in the administration of financial disclosure and conflict of interest laws for public officials because it creates a single agency to

government spending to increase no more than 7 percent from one year to the next. "It's sort of a beautiful thought, but I'm not sure it's practical in terms of the way we do our budgets," Lee said. "I don't think it's feasible to fine tune the tax laws each

year (to meet the 7 percent increase limit).' However, he said it would be easier to impose the limit at the local level because counties use the property tax as their main source of income and it is less difficult to adjust the tax

Skidmore Enlists

Donald Skidmore, a son of Mr. and Mrs. Carl D. Skidmore, of Route 1, Box 48, Accident, enlisted in the U.S. Air Force's Delayed Enlistment Program recently, according to Staff Sergeant Paul Ribarich, Air Force recruiter, 111 S. George Street, Cumberland.

Donald, a senior at Northern High School, is scheduled for enlistment in the Regular Air Force on June 29. Upon graduation from the Air Force's sixweek basic training course, he is scheduled to receive technical training in the electronics program.

He will be earning credits toward an associate degree in applied sciences through the Community College of the Air Force while attending basic and other Air Force technical training schools.

Burch Says Non-Profit Status Of Blue Cross

May Be Jeopardized BALTIMORE (UPI) -Attorney General Francis B. Burch said Tuesday that Blue Cross's nonprofit status could be jeopardized if the insurer carries out its plan to start a profit-making life insurance agency.

Burch said in a legal opinion that Blue Cross could lose its tax favors as a non-profit agency and it could raise antitrust issues.

The proposed insurance company, called Constellation Services Agency Inc., already has a state charter and plans to sell life and disability insurance.

But State Insurance Commissioner Edward J. Birrane, Jr., must issue a license before it can do business, and Birrane has postponed making a decision until Burch's legal

opinion. Birrane made no immediate comment after Burch's

opinion. Because of its non-profit status, Blue Cross is exempt from paying taxes on the premiums it collects. Private insurers have no such exemp-

"Any Blue Cross participation in Constellation's operation or any exercise of control over its management, however slight, may convert Blue Cross into a conventional insurer," Burch worte.

Constellation lists as its directors Thomas H. Sherlock, president of Blue Cross; Denwood N. Kelly, president of Blue Shield; and H. Allen Becker, Blue Cross vice president of sales and

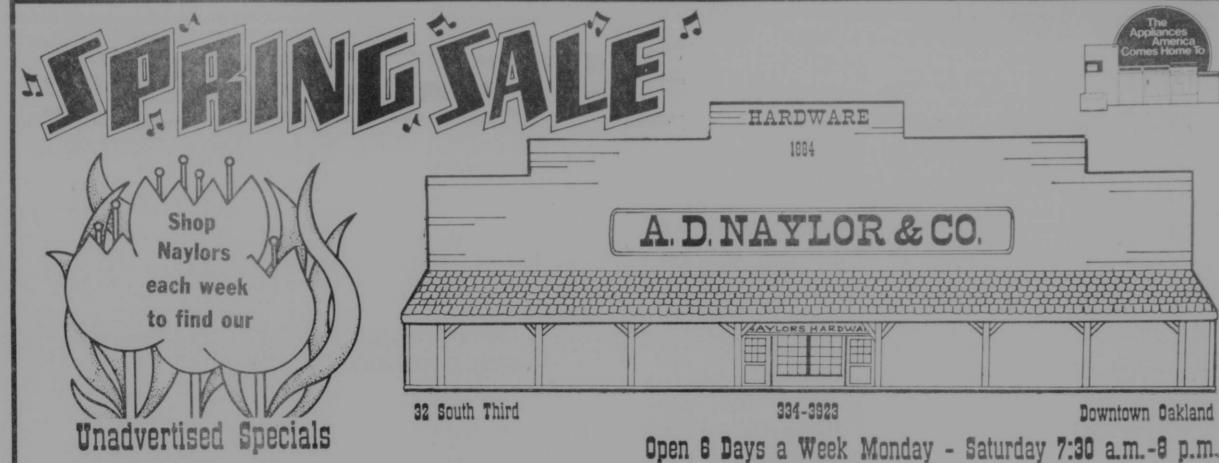

marketing. Burch said that for Blue Cross to maintain its non-profit status it "must limit its investments to securities of the highest order and-or certain kinds of real estate.'

ASCS Answers **Crop Questions**

Many farmers are asking: 'If I plant 50 percent of my land in 1978, how will that affect the normal crop acreage NCA) for my farm?" Paul A. Crowl, Chairperson of the Agricultural Stabilization and Conservation (ASC) Committee, said: "We frequently hear that question. The answer is - a 50 percent reduction in planting in 1978 will not jeopardize a farmer's NCA."

'If a producer chooses to reduce his plantings by one-half or some quantity over the Federally established amount, that producer will be idling more than the program requirements.

Today's sale of \$78,815,000 in General Obligation Bonds was the smallest amount offered by the State since February, 1974.

The continued Triple A credit rating is important to Maryland's taxpavers because it helps to hold down the State real estate tax rate.

The following recipe is a different way to use leftover ham.

4 eggs

3 cups milk

BAKED HAM AND CHEESE PUFF 14 cup melted margarine

3 cups cubed French or Italian bread 3 cups cubed cooked ham

1 cup grated cheddar cheese 2 shakes Worcestershire 3 Tbsp. flour

1 Tbsp. dry mustard Grease a 2-quart casserole or baking dish. In bottom, layer bread cubes, then ham, then grated cheese. Mix flour and mustard and sprinkle over cheese. Drizzle margarine over top. Beat eggs and milk together, add Worcestershire Sauce and pour over layers. Cover and chill in refrigerator at least 4 hours and preferably overnight. Bake uncovered at 350 degrees for 1 hour.

Serve at once. Makes 6 servings. This would be good with a Tossed Salad with French Dressing, Buttered Broccoli and Baked Apple Crisp. NUTRITION NOTE: Good nutrition can and should be enjoyed by everyone. Just think a moment about how enjoyable spring is to everyone. One reason is color. Green grass, blue skies and brightly colored flowers warm our senses and make us feel good. Bright and contrasting colors at mealtime stimulate

appetites too. Food can be nutritious but if it lacks color appeal, it won't be as enjoyable. TIP OF THE WEEK: When you purchase groceries, be sure you take them home with you. Earlier this week, I left my groceries in the cart outside the store and started home without them. Of course, I didn't plan to do that but when I found my car rearranged by my new puppy . . . well, confusion took over and you know the rest of the story. Thought you might enjoy a laugh over something which certainly rates a spot on my list of Dumb Things I Do. Seriously, my tip for this week will interest you if your children receive enough chocolate at Easter to give the Jolly Green Giant a stomach ache. Wrap the extra chocolate candies in plastic food wrap and then aluminum foil and hide them in the freezer to be enjoyed at a later date. Be sure to wrap tightly to keep out air. Carter On Fuel Rate Adjustment

A letter-writing campaign calling for an immediate end to fuel rate adjustments is underway in central and western Maryland, at the instigation of Dan Rupli founder of the Organization for Consumer Justice, formed in 1975

to fight rising electric rates. The letters, urging President Carter to take action to outlaw the use of the fuel rate adjustment and stop soaring electric bills, were conceived by Mr Rupli after a visit to an elderly widow in Washington county, who had just received an electric bill for \$412.33, \$235.50 of which was attributed to the fuel rate adjustment. とうろうろうろうろうろうろうろうろう

Pictured, left to right, Patrick Mitchell, Michael Green, Danny Stonesifer and Gary Marnick taste the fruits of their labor. The boys are part of a group of 89 fourth grade students at the Broad Ford Elementary School who have just completed an educational program on nutrition taught by Mrs. Rickman, Mrs. Raines and Mrs. Crumley. The teachers were assisted by

Garrett County Home Economics Extension Agents, Mrs. Fazenbaker and Mrs. Opel. The children were taught the basics of preparing a balanced meal in conjunction with National Nutrition Week, and as a final project the children prepared a well balanced meal last Thursday of "Mulligan Stew," homemade biscuits and homemade vanilla ice cream.

#### A "Sunny" Easter . . .

Once again Mother Nature forced us to our knees by lashing out with one of the most awesome displays of frozen rain this county has experienced in many years. Her actions created quite a havoc. Trees, homes and automobiles were damaged. There was a massive power outage. Those of us who subscribe to Bettervision were forced to spend Easter Sunday afternoon reading a book Of The Republican instead of watching the tube.

Immediately following the storm, Oakland city crews were canvassing the streets, removing fallen limbs and Bill Passes House trees from residents' yards. City taxpayers should be pleased with the services rendered.

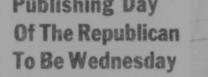

There are undoubtedly hundreds of accounts of friendly, neighborly acts performed by persons all over the county for those in need during the freezing onslaught.

Delegate DeCorsey Bolden, R-Garrett and Allegany Counties, announced that While it certainly wasn't a sunny Easter, the Christian House Bill #1247, which he spirit shown brightly all around.

Miners were scheduled to return to work Monday, but were prevented from entering the mines at both Alpine and North Branch by pickets from the Mine Construction union, who had not yet reached a contract with the Association of Bituminous Contractors. A tentative contract was agreed upon Monday night, and members will vote on the settlement next Tuesday. Island Creek's mines will begin shipping coal again as

NUTRITION NOTE: According to Georgia Stevens Nerud, Consumer Economics Specialist, Cooperative Extension Service, University of Md., there are few vegetables as versatile as carrots. They are a low cost vegetable which combine well with other vegetables and can be served either cooked or raw. Colorful, crunchy carrot sticks brighten any meal. Shredded carrots are good in cabbage slaw, tossed green salad, and molded into gelatin. You can saute, butter, cream, glaze or bake carrots. One average carrot has only twenty-one calories and provides more than the full amount of Vitamin A needed daily for an adult. Remember, Vitamin A is important in building and maintaining resistance to infections, as well as stimulating new cell growth. It is recommended for preventing or relieving poor skin conditions

and is well known for preventing or improving night blindness. TIP OF THE WEEK: Canned tuna, whether packed in oil or water, contains the same amount of protein-45 grams per 61/2 oz. can. The letters to the editor the past few weeks have clearly established that the Board of Education has established taxpayers money.

The Board has argued that its fleet of cars wouldn't be office parking lot overnight, yet they insist that three driver education cars remain in the high school lots nightly. #### House Bill 296 Killed In Senate

Delegate DeCorsey E Bolden (R-Garrett & Allegany land, in the former Center Counties) recently released that House Bill #296, an act to repeal the \$2.00 Public Lands Stamp required by hunters on state land, was killed on March 16 by a motion in the Senate to from 9 a.m. until 3 p.m. April table the bill by a vote of 16 to 9 with 22 senators not voting. This legislation was spon

sored by Delegates Bolden William Byrnes, Thomas gation. The delegates believe that the \$2.00 Public Lands Stamp is an unnecessary tax The week will be observed burden on the hunter in general, and specifically discriminates against Western Marylanders whose counties contain a high percentage of state-owned land. The Department of Natural Resources would be lost if the \$2.00 Public Lands Stamp was repealed.

House Bill #296, which was passed as a state-wide bill on rector of the Child Develop- February 1st by an overwhelming 116 to 6 vote in the House of Delegates, was later amended in the Senate Ecocounties of Maryland (Frederick, Washington, Allegany, and Garrett)

Following much debate on the Senate floor on March 16th by other counties who also wanted to be exempted from the Public Lands Stamp, the motion to table the bill, thus ending discussion, was passed. Delegate Bolden stated, "On March 20th we again tried to bring our bill to the Senate floor for reconsideration; however, the motion to reconsider

#### Soviet Article Appears To Be Warning To U.S.

with the attention usually reserved for important state documents, a Soviet newspaper article that appears to be Return Home After meant as a warning to the United States.

Soviet officials in Washington underlined the warning and said the article in Pravda is "authoritative," meaning it had returned to their homes today the direct approval of the ruling politburo.

The article was signed by in the Soviet Foreign Ministry, and the theme is summed up in the headline: "A Time of Crucial Decisions." Arbatov said the central issue

in Soviet-American relations is the strategic arms limitation talks and, "One cannot escape the impression that it is on this root question that Washington has once again entered a period of vacillation." One U.S. official noted that

the tone of the Arbatov article was "not threatening, but anxious" and it was a carefully phrased plea to try to salvage the SALT II negotiations.

The talks reportedly have bogged down over several technical but important issues on such new weapons as the cruise missile, the Backfire bomber and submarinelaunched ballistic missiles. A Russian official in Wa-

For Karl and Karen this month marks their second wedding anniversary. It brings bright memories that glow as the candles glowed that Saturday evening they were married.

But "looking back" is not the character of love. Love looks up! It finds its soul in the presence of God. It finds its body in the devotion of a man and a woman to each other, devotion enriched by faith and expressed in unselfish affection.

Love looks forward, too! It faces confidently the years ahead, expressing its spiritual vitality in hope and purpose and concern for others.

For Karl and Karen, as for other Christian couples, the smile in looking forward is born in looking up.

#### TWO GREAT DANGERS TO YOUR EYES

There are many causes of blindness, from congenital defects to accidents. But, two different degenerative and progressive diseases are a great danger to persons over 40. Senile cataracts cause about 13% and Glaucoma about 14% of all blindness.

But cataracts can be safely removed and glaucoma can be controlled, providing the diagnosis of either is made and treatment begun in its early stages. The only sure way to guard against these two dangers is to have your eyes examined by a Doctor every two years after the age of 40. It takes an expert to diagnose them.

YOUR DOCTOR CAN PHONE US when you need a medicine. A great many people entrust us with their prescriptions. May we compound

#### Columbia Gas Of Maryland, Inc. Notice of Proposal To Increase Rates

Notice is hereby given that on March 15, 1978, Columbia Gas of Maryland, Inc., filed with the Public Service Commission of Maryland revised rate schedules proposing to increase its rates and charges pursuant to Section 69B of The Public Service Commission Law. The revised rate schedules are designed to produce \$774,700 in additional gross annual revenue, an increase of 3.43%, with a proposed effective date of April 17, 1978. The Commission has designated the proceeding Case No. 7188 and has entered an Order suspending the revised rate schedules for a period of 90 days from March 15, 1978.

A copy of Columbia Gas of Maryland, Inc.'s filing, and its supporting testimony and exhibits, is available for inspection at (1) the Public Service Commission of Maryland, Room 904, 301 West Preston Street, Baltimore, Maryland; (2) the following offices of Columbia Gas of Maryland, Inc.: 149 Baltimore Street, Cumberland, Maryland 21502, and 55 Sycamore Street, Hagerstown, Maryland 21740; and (3) the following public libraries: Washington County Free Library, 100 South Potomac Street, Hagerstown, Maryland 21740, Allegany County Library, 31 Washington Street, Cumberland, Maryland 21502, and Ruth Enlow Library, 6 North Second Street,

Oakland, Maryland 21550. Persons who can demonstrate sufficient interest and desire to produce direct evidence may request leave to intervene in Case No. 7188, through their own counsel, by filing with the Public Service Commission, 301 W. Preston Street, Baltimore, Maryland 21201, eight copies of a Petition Requesting Leave to Intervene by no later than

the close of business on Friday, April 4, 1978. A prehearing conference will be held before the Commission on Wednesday, April 19, 1978, at 11:00 o'clock a.m., in the offices of the Commission, 904 State Office Building 301 W Preston Street, Baltimore, Maryland, at which time petitions seeking intervention and other

preliminary matters will be considered. Additional hearing sessions, in the service area of Columbia Gas of Maryland, Inc., providing opportunity for the general public to present comments to the Commission on the application of the Company, will be specified in an insert to be included with customer bills mailed prior to such additional hearing sessions.

help people." He continued: "My purpose in writing, however, is an emergency, not of people making but one created by corporate protectionism and profit assurance to stock holders of Potomac Edison with the pass-through fuel costs being added to electric bills. These costs are unbearable to every user of this utility service, from businesses to the person on the smallest social security benefits.

"It is unpardonable that the utility company is set apart, as an industry, for assured stockholder profits, along with their franchise protection. Not even having to operate in a competitive marketing situation, they are permitted to parasitize users income, for Potomac Edison's profit structure. ### Association For

#### Retarded Citizens Plans Ride-A-Bike

The Garrett Association for Retarded Citizens is sponsoring its second annual Ride-A-Bike on Saturday, April 29, starting at 1:00 p.m.

There will be a northern and southern route to accommodate all the bike riders, hikers, and joggers who wish to travel the 10-mile circuit. The northern route will start and end at the Grantsville Fire Hall and the soutern route will start and end at the National Guard Armory in Oakland.

Each Ride-A-Bike participant is to arrange for sponsors to contribute a certain amount of money for each mile the participant travels. Sponsor forms and further information concerning the northern Garrett County Ride-A-Bike may be obtained from Mike Brandes (895-5765) in Grantsville. Sponsor forms and additional information concerning the southern Garrett County Ride-A-Bike may be obtained at the following in Oakland: The Appalachian Adult Activity Center (334-8146), at the Community Action Building, the Department of Vocational Rehabilitation office (334-9438) at 736 East Oak Street, and the Youth (334-3330) in Room 306 at the

Dear Editor:

I read in your paper where County Commissioner Edwards finally balked at voting more County money for the Sanitary Commission, but, why wait until \$400,000.00 has already been poured down that

Mr. Edward's attempt to turn Accident and Friendsville against us is down right shabby. We don't expect them to pay our sewerage bills. We didn't ask the County Commissioners to lend a cent to the Sanitary Commission. We pay only what we owe by legal contract, not those enormous

> I had hoped that the relationship between the town of Mt. Lake Park and the Sanitary Commission was improving since my taking office, but this is not the case.

Last December the Circuit Court ordered the Sanitary Commission to supply water to the John and Mary Drive areas within 14 days. This court order was ignored by the Sanitary Commission. Once again, the town of Mt. Lake Park was left holding the bag, and had to pay for this service. If we are not satisfied with the Court's decision in the sewerage service charge, I am sure there are other courts.

I intend to see that the citizens of Mt. Lake Park do not end up holding the short the Sanitary Commission. As I am writing this letter as an education. When will our Mt. Airy, Md. for the Commission's financial answer to Dave Savage from educators realize what an

## Lutherans believe IN THE RESURRECTION OF THE BODY

That's the giory of the Christian faith. Death is not the end. Hope is not limited to this life. The Christian lives in sure and certain hope of the resurrection of the body, because Christ-who arose from the dead-promises this same resurrection to every one of

Explain it, you say? Who can explain a miracle?

Lutherans make no attempt to explain the mechanics of the resurrection of the body. It's a matter of faith. Their only touchstone is Scripture. Christ has promised, "I go to prepare a place for you. And when I go and prepare a place for you, I will come again and will take you to myself, that where I am you

In Garrett County and throughout Maryland, April 2-9 has been proclaimed "Week of the Young Child". Locally, Child Development, Head Start and the Board of Education will have special programs and open houses to acquaint the public with the programs they offer for young children up to age five.

Thought that it would be appropriate to dedicate this week's column to young children and some of the fun things they can learn and do in the kitchen. A kitchen can be a fun and almost magical place to a young child. They get to smell tangy oranges and spicy cinnamon; they get to hear hamburgers sizzling and celerverunching: they get to see a pan of goopy cake batter bake (almost magically to them) into a yummy cake; they get to squeeze cookie dough and, best of all, they get to taste wonderful new things. We grownups take a lot for granted but, to a young child, everything is new and waiting to be explored. A kitchen is a great place for a young child to learn colors, shapes, textures the Potomac Edison Company and sizes. To a little one, it's fun to pick up beans from one bowl and put them into another; it's fun to shape cookie dough into in Western Maryland to posballs; it's fun to stir their fingers through a small bowl of flour; in fact, it's fun to do most anything in the kitchen. Our patience will stretch farther if we can just remember that all the things children want to do in the kitchen are just ways for them to Maryland have a right to, and

NUTRITION NOTE: Growing children, especially, need foods from the basic four daily. The basic four are: Enriched vaccines are available for and Whole Grain Bread and Cereal - at least four servings

Lean Meat, Fish, Poultry, Eggs, Nuts, Peanut Butter, Dry Peas and Beans - two or more servings daily (two ounces, edible

Fruit-Vegetable - four or more servings daily. Include one which is deep green or yellow for Vitamin A and one which is peared in the nation since rich in Vitamin C such as citrus fruit, strawberries, green peppers and tomatoes

Milk-Cheese - two or more cups of milk daily. One ounce of

cheese is equivalent to one cup of milk. TIP OF THE WEEK: You say you know what good nutrition is but you can't get your little darling to eat any of it. Here are some ideas which may get picky eaters interested in eating. Let them have their own special plate which is smaller than a regular dinner plate. If it has a picture of Mickey Mouse or some favorite character on it, all the better. Let your child serve his or her own food. They may only put a teaspoon of each food on their plate but they may surprise you and go back for a second or third teaspoon. Make sure there are small portions of meat for them. In fact, let them shape their own hamburgers or such foods and they'll be more likely to eat. If your child is a poor eater, don't allow any snacks unless they are good food items such as apple wedges, chunks of cheese or raisins. Above all, let your child see that eating is fun and don't allow meal time to become a battleground.

## Sleeping Sickness

Maryland Department of Agriculture Veterinarians urge all owners of horses and ponies in the state to have their animals vaccinated against equine encephalitis, also known as "sleeping sickness."

This dread disease of equines poses a threat when mosquito populations soar during the coming warm months of spring and summer.

Dr. Hugh E. Binks, Chief of MDA's Animal Health Section. and Maryland State Veterinarian, says, "effective vaccines are available, but they are only effective for one year, preferably in the spring."

He adds that "combination eastern (EEE), western (WEE) and Venezuelan encephalitis (VEE). Western and eastern encephalitis occur seasonally in many parts of the country while VEE has not ap-

All three forms of encephalitis affect humans as well as horses. Birds usually act as a disease reservoir and carry the acre virus of EEE and WEE. Mosquitoes transmit these diseases from the birds to horses or humans.

#### Steve Liller Leads Mt. Top Volleyball All-Star Team

For the second straight year, the area's leading scorer is also the leading vote-getter on the Cumberland Sunday Times All-Area Basketball team.

Southern's Steve Liller was also voted "Player of the Year" in a poll of all the area high school coaches.

Liller's teammates on the all-star team are Kevin Carcella of Bishop Walsh, Dave Blank of Beall, Greg Becker of Fort Hill and Rodney Hutzel of Frankfort. All five of the firstteam members were Cumberland Times "Players of the Week" during the season.

Approximately 220,000 Maryland State income taxpayers The names of the league are saving as much as \$175 under the new procedure. These taxpayers did not have enough deductions to itemize under Federal law, but could benefit by itemizing on their State tax return.

Taxpayers wishing to take advantage of the new law should include a copy of Schedule "A" of Federal Form 1040, which lists itemized deductions, along with their Maryland income tax return. Copies of Federal Schedule "A" are available at all offices of the Maryland Income Tax Division and are included in the Federal Form 1040 tax

packet. Generally, taxpayers may deduct anything on their Maryland tax return that is permitted as a deduction of Federal tax forms. The major exception is State and local income taxes, which may not be deducted on the Maryland In-

come tax return. "Taxpayers who have already filed their Maryland income tax return, using the standard deduction, and who would benefit from itemizing deductions under the new law, may file an amended state income tax return claiming those deductions. Copies of the

Part of the teamwork is knowing when to get out of the way, as demonstrated by Dave Maust, who had to crouch each time a truss was completed and moved to the press. Even while crouching. Dave was gathering pieces for the next truss. The press crimps in the steel plates used to hold the trusses firmly together, and then conveys them outdoors for stacking and loading for

There was a letter published this past Thursday in The Preston County Journal which disparages the work of the Preston County Health Council and the qualifications of the doctors working with it. These doctors are qualified to practice medicine, are not just out of medical school with no experience as implied there. You may place your confidence in any of them although in the area of obstetrics and gynecology, none had much experience nor extra training and did not feel confident in these fields. When so many people of the county have worked so hard to get medical service into the needy areas, I would hate to see some slighting remarks thwart that

Background Scripture Devotional Reading:

From our contemporary perspective it is easy to identify ourselves on the side of the disciples who were thrown into prison by the Sadducean party (Acts 5). Of course the really important but what they were teaching. The question is not, where do we stand today "We strictly charged you not to

look at this event as it must have been seen by most of the citizens of Jerusalem in those early days after the death and resurrection of Jesus. For one thing, we would have seen this tiny band of Christ's disciples as a troublemaking minority group. The great majority of the people of Jerusalem were quite satisfied with their Jewish religion. The followers of Jesus, most of whom the will of the majority? were from Galilee and other areas-and therefore not na- conscience is a majority of one! trouble and were not wanted in Jerusalem. Why couldn't they go home where they belonged and practice their new religion there? What is more obnoxious than a trouble-making minority group of outsiders

## R. A Monthly News 🗏 🗅 DON'T BE FOOLED!

There will be a great many practical jokes played on the 1st of April and for the most part they will be harmless fun. But there is also a meaningful lesson that we can associate with April Fools Day.

Health quacks play people for fools by tricking them about their most important possession-their health. They promise quick and easy cures where really none exist and because people want to believe, they blindly go along. Don't be fooled. Rely on health professionals such as your physicians and pharmacists.

to needed care. The Health Systems Agency of Western Maryland, one of five in the state, was established September 1, 1976 as a public regional planning body chartered to oversee the health care needs of the four western counties. The Agency operates under the auspices of a Governing Board of 16 members, 12 of whom are Commissioners of the four counties or their represen-

## Two Motorcycles Wreck, Injure

A double motorcycle accident occurred on the Lower New Germany Road Sunday quizzed an ex-convict in the afternoon. Three persons were injured, but were treated at the scene

Edward Frostburg, was thrown from his cycle but the driver and passenger of the other cycle were not. They were Jonathan G. Newman and Kelley M. Meyer, passenger, both of Frostburg. The mishap occurred about 2.2 miles south of the Avilton-Lonaconing road shortly before 4 p.m. They were northbound, came over the crest of a hill, and ran into a pile of dirt and gravel in their lane of travel. The pile, about 15 to 20 inches high was apparently left from some road construction. Edward hit the pile and was thrown from the vehicle and landed about 100 feet from the pile. The two on the other cycle slid about 50 feet before coming to rest. No barricades were in place to indicate construction.

Tfc. Dale Williams investigated the double mishap.

## IMPORTANT NOTICE TO POTOMAC EDISON RESIDENTIAL CUSTOMERS

# YOU CAN NOW DEFER PAYMENT OF HALF THE FUEL COST ON YOUR MARCH OR APRIL ELECTRIC BILL

You can defer payment of half the fuel cost on your March or April electric bill.

The Maryland Public Service Commission has directed PE to defer, upon request of residential customers, half the amount shown as "Fuel Cost" on March or April bills with repayment of the amount to be extended over a six-month period.

For example, if the FUEL COST on your March bill was \$90, half of that amount (\$45) can be deferred. With bimonthly billing, \$15 (one-third of the \$45)

will be added to regular bills in May, July and September. If your March bill has already been paid in full, we will at your request, either credit your next bill or send to you a refund check for the deferred amount. No late payment charge or interest will be imposed on the deferred amount.

Just visit, call or write the Potomac Edison office serving your location and ask to be put on the deferred payment plan. It would be helpful if you could give Potomac Edison your account number when you request the plan.

#### A WORD ABOUT FUEL COSTS

Fuel costs on Potomac Edison bills in Maryland have been relatively higher and reflect the cost of electricity purchased by PE to supply its customers during the lengthy United Mine Workers strike.

Also the fuel cost on electric bills received since early March may appear relatively higher because ALL FUEL COSTS are now shown as a separate entry. Previously, a portion of the fuel cost was included in the base rate. With the March billing, the entire cost of fuel used by PE's own generators and the fuel related component of purchased power is shown in the item "FUEL COST" on your bill.

#### **Byron Asks Congress** For Several Changes

WASHINGTON, (UPI) Rep. Goodloe E. Byron, D-Md., said Monday he has asked Congress to make numerous changes in the nation's tax laws, including a \$1,500 deduction for families caring for older relatives.

Byron testified before the Enlow, Hoyes. House Ways and Means Committee that studies have shown it is more humane and cheaper to care for the elderly at home than in an institution.

"Certainly the care an individual will receive from his or her own family will be better than if they were living in an institution," he said.

"I think that as a nation, we should encourage families to relatives . . . and our tax structure should reflect this priority.

#### **Project Child Find** Discovers 1,400 Handicapped Children

Over 1,400 handicapped Maryland children have been discovered since last September who are not receiving an education.

With "Project Child Find," a continuing awareness effort, the State Department of Education and all 24 local school systems started last fall looking for those individuals, from birth through age 21, who may have physical, emotional, or learning problems and are not in school.

"Most of the children we have found so far are preschoolers," said Dr. Linda Jacobs, assistant state superintendent for special education, but that fact doesn't for a minute reduce our interest in them." Jacobs explained that 13 of the state's school systems already have some federally funded preschool programs for handicapped children and several have locally funded programs.

"In addition," says Dr. Jacobs, "the law requires that systems have free, appropriate

programs not only for threeand four-year-old handicapped children but also all handicapped through age 20. Those over 20 who are uncovered by Child Find will be referred to other public agencies for help.

> Dr. Jacobs says school officials have no idea how many more children remain undiscovered. The program is continuing, she said, because the data collected is necessary to plan the number and kinds of educational programs needed, and because such a campaign is required under the Federal Education of All Handicapped Children Act.

Local school systems report the following results to date in their "Child Find" efforts: Allegany -100; Anne Arundel-91; Baltimore City-461; Baltimore County-76; Calvert-6; Caroline-21; Carroll-21; Cecil-1; Charles-32; Dorchester-5; Frederick-40; Garrett-189; Harford-in process; Howard-6; Kent-1; Montgomery-in process; Prince George's-365; Queen Anne's-2; St. Mary's-in process; Somerset-2; Talbot-5; Washington-1; Wicomico-1; Worcester-0.
